### Part B

解答例

I think high school students having part-time jobs is good. I have two reasons for this.

First, at a part-time job, students can learn new things. There are things they can't learn at school. A student can learn how to speak to customers at a part-time job in a shop. Also, a student can learn about cooking food at a restaurant. Students can't experience these kinds of things at school.

Second, students can meet people of different ages at a part-time job. This is interesting, because at school, students usually speak to people who are their own age.

For these reasons, I think it's good for student to have part-time jobs.
